INDEX TO VOLUME 25

A

Abbott, Osler. Discussion of pulmonary function after multiple segmental resection for bronchiectasis, 52

discussion of pulmonary valvulotomy, 184

Acidosis during anesthesia, mechanism of development of. Physiologic studies following thoracic surgery. IV. (Stead, Martin, and Jensen), 435

Ackerman, Lauren V. (with Benoit, Hector W., Jr.) Solitary pleural mesotheliomas, 346

Albertson, Horace A. Broncho-subdiaphragmatic fistula, 505

Alexander, Robert S. (with Reydman, Melvin M.) Simple test of pulmonary function employing the oximeter, 95

Alimentary continuity in children originally treated by multiple stage procedure for correction of congenital tracheoesophageal defects, experiences with operative managament of delayed restoration of (Levin and Varco), 16

American Association for Thoracic Surgery. List of officers, council, membership committee, and members, 635-644

Program, Thirty-third Annual Meeting, 215

Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation (Bailey, Truex, Angulo, Geckeler, Likoff, Antonius, and Neptune), 143

Anderson, Augustus E. (with Buechner, Howard A., Strug, Lawrence H., Seabury, John H., and Peabody, J. Winthrop, Jr.) Pulmonary resection in treatment of blastomycosis, 468

Anesthesia, mechanism of development of acidosis during. Physiologic studies following thoracic surgery. IV. (Stead, Martin, and Jensen), 435

Aneurysm of ductus and one of pulmonary artery, review of seventy-five cases with surgical treatment including an—The patent ductus (Holman, Gerbode, and Purdy), 111

pulmonary artery, unusual (MacKenzie and Clagett), 524

Angulo, Armand W. (with Bailey, Charles P., Truex, Raymond C., Geckeler, George D., Likoff, William, Antonius, Nicholas, and Neptune, Wilford B.) Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation, 143

Antonius, Nicholas (with Neptune, Wilford B., Bailey, Charles P., Truex, Raymond C., Angulo, Armand W., Geckeler, George D., and Likoff, William) Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation, 143

Aorticopulmonary fistula, surgical treatment for congenital (Scott and Sabiston), 26

Arterial oxygen tension in rest and during effort as test of pulmonary function (Björk, Michas, and Uggla), 558

Atelectasis, recovery from experimental (Damste, Heemstra, and Dirken), 480

Aufses, Arthur H. (with Harte, Maurice S.) Results of thoracoplasty for pulmonary tuberculosis eleven to sixteen years after operation, 329

B

Baffes, Thomas G. (with DeCamp, Paul T., Overstreet, John W., and Ochsner, Alton) Use of suture constriction of upper lobe in treatment of pulmonary tuberculosis (Paulino procedure), 219

Bailey, Charles P. Discussion of indications for and results of commissurotomy for mitral stenosis, 72

(with Larzelere, H. B.) New instrument for cardiac valvular commissurotomy, 78

(with Neptune, Wilford B., and Goldberg, Harry) Surgical correction of atrial septal defects associated with transposition of pulmonary veins, 623

(with Truex, Raymond C., Angulo, Armand W., Geckeler, George D., Likoff, William, Antonius, Nicholas, and Neptune, Wilford B.) Anatomic (histologic) basis and efficient surgical technique for restoration of coronary circulation, 143, 173

Barber, Hugh (with Lloyd, Milton Sills) Modified thoracotomy technique for prevention of postoperative pain and deformity, 300
Beck, Claude S. Discussion restoration of coronary circulation, 168
Benoit, Hector W., Jr. (with Ackerman, Lauren V.) Solitary pleural mesotheliomas, 346
Björk, Viking Olov (with Michas, Pan A., and Uggla, Lars G.) Arterial oxygen tension in rest and during effort as test of pulmonary function, 558
Black, Harrison. Discussion of indications for and results of commissurotomy for mitral stenosis, 74
discussion of coronary circulation, 171
Blake, Hu A. (with Salyer, John M., and Forsee, James H.) Pulmonary hematoma, 336
Blastomycosis, endobronchial lesions in pulmonary (Weisel and Landis), 570
pulmonary resection in treatment of (Buechner, Anderson, Strug, Seabury, and Peabody), 468
Block dissection in pneumonectomy for carcinoma (Higginson), 582
Bowel after subtotal esophagectomy for cancer, intrathoracic use of large (Lopes), 205
Breathing capacity and saline infusion test, maximum (Gobbel, Reeve, Stranahan, and Hughes), 498
Brindlay, John H. (with Ellis, F. Henry, Jr.) Bronchial arteries. IV. Experimental bronchial arterial occlusion and bronchial obstruction, 358
Bronchial arteries. IV. Experimental bronchial arterial occlusion and bronchial obstruction (Ellis, Grindlay, and Edwards), 358
carcinoma, intrathoracic irradiation of hilum after resection for (Schneidrzik), 327
obstruction, experimental bronchial arterial occlusion and (Ellis, Grindlay, and Edwards), 358
Bronchiectasis, pulmonary function after multiple segmental resection for (Overholt, Walker, and Etsten), 40
Bronchiogenic carcinoma, intrapericardial dissection in left pneumonectomy for (Kirklin and Jampolis), 280
Pancoast syndrome due to: successful surgical removal and postoperative irradiation (Chardack and MacCallum), 402
Bronchography compounds, clinical experience with water-soluble (Peck, Neerken, and Salzman), 234
Bronchospirometry, a double lumen catheter for (Marsh), 495
Broncho-subdiaphragmatic fistula (Albertson), 505
Buechner, Howard A. (with Anderson, Augustus E., Strug, Lawrence H., Seabury, John H., and Peabody, J. Winthrop, Jr.) Pulmonary resection in treatment of blastomycosis, 468
Button technique for closure of experimental interauricular septal defects, modified (Swan and Stewart), 397
Byron, Francis X. (with Muller, William H., Jr., and Powers, Harry W.) Delayed traumatic rupture of esophagus, 371

C

Cancer, intrathoracic use of large bowel after subtotal esophagectomy for cancer (Lopes), 205
Carcinoma, block dissection in pneumonectomy for (Higginson), 582
cells, examination of pleural fluid for (Graham, McDonald, Clagett, and Schmidt), 366
Carcinosarcoma of esophagus (Thompson), 261
Cardiac catheterization, report of case in which diagnosis is established by —Traumatic cardiac septal defect (Guilfoil and Doyle), 510
Cardiorrhaphy, personal experiences with ten consecutive cases of heart wound treated successfully by pericardiotomy and (Naclerio, Maynard, and Cordice), 448
Carothers, E. L. (with Hahn, P. F.) Lymphatic drainage following intrabronchial instillation of silver-coated radioactive gold colloids in therapeutic quantities, 265
Carrigan, Paul T. (with Crane, A. Reynolds) Primary subpleural intrapulmonic thymoma, 600
Catheter for bronchospirometry, a double lumen (Marsh), 495
Cavernolithiasis, clinical significance of (Cooley), 246
Chardack, William M. (with MacCallum, James D.) Pancoast syndrome due to bronchiogenic carcinoma, successful surgical removal and postoperative irradiation, 402
Clagett, O. Theron (with Graham, George Grimsley, McDonald, John R., and Schmidt, Herbert W.) Examination of pleural fluid for carcinoma cells, 366
(with MacKenzie, Donald A.) Unusual aneurysm of pulmonary artery—report of case in which treatment was surgical, 524

Cohen, Sidney H. (with Hanner, Joseph M.) Repair by full thickness skin graft of penetrating wounds of intrathoracic trachea, 380
Commissurotomy for mitral stenosis, indications for and results of (Glover, O'Neill, Harris, and Janton), 55
new instrument for cardiac valvular, 78
Congenital aorticopulmonary fistula, surgical treatment for (Scott and Sabiston), 26
heart disease, pulmonary circulation in diagnosis of (Marder, Seaman, and Wilson), 305
tracheoesophageal defects, experiences with operative management of delayed restoration of alimentary continuity in children originally treated by the multiple stage procedure for correction of (Leven and Varco), 16
Cooley, Denton A. Clinical significance of cavernolithiasis, 246
discussion of indications for and results of commissurotomy for mitral stenosis, 76
Coronary circulation, anatomic (histologic) basis and efficient clinical surgical technique for restoration of (Bailey, Truex, Angulo, Geckeler, Likoff, Antonius, and Neptune), 143
Craig, Robert L. (with Holmes, George W., and Shabart, Elmer J.) Tracheal resection and replacement with prosthesis, 384
Crane, A. Reynolds (with Carrigan, Paul T.) Primary subpleural intrapulmonic thymoma, 600

D

Damste, P. J. Sinninghe (with Heemstra, H., and Dirken, M. N. J.) Recovery from experimental atelectasis, 480
David, Edgar W. Discussion of patent ductus, 140
DeCamp, Paul T. Discussion of patent ductus, 141
(with Baffes, Thomas G., Overstreet, John W., and Oehsner, Alton) Use of suture constriction of upper lobe in treatment of pulmonary tuberculosis (Paulino procedure), 219
Deterling, Ralph A., Jr. Discussion of pulmonary valvulotomy, 186
Diaphragm repaired utilizing tantalum mesh, eventration of (Sanford), 422
Diaphragmatic hernia, volvulus of lobe of lung as complication of (Ransdell and Ellison), 341
Dirken, M. N. J. (with Damste, P. J. Sinninghe, and Heemstra, H.) Recovery from experimental atelectasis, 480
Doyle, Joseph T. (with Guilfoil, Paul H.) Traumatic cardiac septal defect. Report of case in which diagnosis is established by cardiac catheterization, 510

E

Ehrenhaft, J. L. Discussion of inferior esophageal constrictor in relation to lower esophageal disease, 15
Ellis, F. Henry, Jr. (with Grindlay, John H., and Edwards, Jesse E.) Bronchial Arteries. IV. Experimental bronchial arterial occlusion and bronchial obstruction, 358
Ellison, Robert G. (with Ransdell, Herbert T., Jr.) Volvulus of lobe of lung as complication of diaphragmatic hernia, 341
Endobronchial lesions in pulmonary blastomycosis (Weisel and Landis), 570
Esophageal disease, inferior esophageal constrictor in relation to lower (Kay), 1
Esophagectomy for cancer, intrathoracic use of large bowel after subtotal (Lopes), 205
Esophagus, benign tumors and cysts of (Totten, Stout, Humphreys, and Moore), 606
carcinosarcoma of (Thompson), 261
delayed traumatic rupture of (Muller, Byron, and Power), 371
successful construction of artificial antethoracic (Miller, Ginsberg, and Scarborough), 107
Etsten, Benjamin E. (with Messer, Anne C.) Respiratory acidosis during intrathoracic surgery: the (Overholt) Prone Position, 286
(with Overholt, Richard H., and Walker, James H.) Pulmonary function after multiple segmental resection for bronchiectasis, 40
Eventration of diaphragm repaired utilizing tantalum mesh (Sanford), 422

F

Felton, Warren L., II. Reaction of pulmonary tissue to Lipiodol, 530
Fistula, broncho-subdiaphragmatic (Albertson), 505
Forsee, James H. (with Salyer, John, and Blake, Hu A.) Pulmonary hematoma, 336

G

Geckeler, George D. (with Bailey, Charles P., Truex, Raymond C., Angulo, Armand W., Likoff, William, Antonius, Nicholas, and Neptune, Wilford B.) Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation, 143

Gerbode, Frank. Discussion of surgical treatment for congenital aorticopulmonary fistula, 38

(with Marguiles, Gerald S.) Neurofibromatosis with intrathoracic neurofibromas of vagus nerve. Report of case associated with pectus excavatum, 429

(with Holman, Emile, and Purdy, Ann) The patent ductus, review of seventy-five cases with surgical treatment including an aneurysm of ductus and one of pulmonary artery, 111

Ginsberg, Milton (with Miller, Joseph M., and Scarborough, C. Parke) Successful construction of artificial antethoracic esophagus, 107

Glover, Robert P. (with O'Neill, Thomas J. E., and Harris, James S. C., and Janton, O. Henry) Indications for and results of commissurotomy for mitral stenosis, 55, 76

Gobbel, Walter G., Jr. (with Reeve, Thomas S., Stranahan, Allan, and Hughes, Julia) Maximum breathing capacity and saline infusion test, 498

Goldberg, Harry (with Neptune, Wilford B., and Bailey, Charles P.) Surgical correction of atrial septal defects associated with transposition of pulmonary veins, 623

Graham, George Grimsley (with McDonald, John R., Clagett, O. Theron, and Schmidt, Herbert W.) Examination of pleural fluid for carcinoma cells, 366

Grimes, Orville F. (with Raphael, Robert L., and Stephens, H. Brodie) Cavernous hemangioma of posterior mediastinum, 324

Guilfoil, Paul H. (with Doyle, Joseph T.) Traumatic cardiac septal defect. Report of case in which diagnosis is established by cardiac catheterization, 510

Gumbiner, Stanley H. (with Keeley, John L., Guzauskus, Anthony C., and Rooney, James A.) Mediastinal lipoma: successful removal of 1,700 gram mass, 316

Guzauskus, Anthony C. (with Keeley, John L., Gumbiner, Stanley H., and Rooney, James A.) Mediastinal lipoma: successful removal of 1,700 gram mass, 316

H

Hahn, P. F. (with Carothers, E. L.) Lymphatic drainage following intrabronchial instillation of silver-coated radioactive gold colloids in therapeutic quantities, 265

Hanner, Joseph M. (with Cohen, Sidney H.) Repair by full thickness skin graft of penetrating wounds of intrathoracic trachea, 380

Harris, James S. C. (with Glover, Robert P., O'Neill, Thomas J. E., and Janton, O. Henry) Indications for and results of commissurotomy for mitral stenosis, 55

Harte, Maurice S. (with Aufses, Arthur H.) Results of thoracoplasty for pulmonary tuberculosis eleven to sixteen years after operation, 329

Heart wound treated successfully by pericardiotomy and cardiorrhaphy, personal experiences with ten consecutive cases of (Naclerio, Maynard, and Cordice), 448

Heemstra, H. (with Damste, P. J. Sinninghe, and Dirken, M. N. J.) Recovery from experimental atelectasis, 480

Hemangioma of posterior mediastinum, cavernous (Grimes, Raphael, and Stephens), 324

Hematoma, pulmonary (Salyer, Blake, and Forsee), 336

Hiatus hernia and thoracic stomach, malignant disease in association with (Robb), 493

Higginson, John F. Block dissection in pneumonectomy for carcinoma, 582

Hill, Lucius D., III (with White, M. Lawrence, Jr.) Plasmacytoma of lung, 187

Hilum after resection for bronchial carcinoma, intrathoracic irradiation of (Schneidrzik), 327

Himmelstein, Aaron. Discussion of surgical treatment for congenital aorticopulmonary fistula, 37

Holman, Emile (with Gerbode, Frank, and Purdy, Ann) The patent ductus, review of seventy-five cases with surgical treatment including an aneurysm of ductus and one of pulmonary artery, 111, 142

Holmes, George W. (with Craig, Robert L., and Shabart, Elmer J.) Tracheal resection and replacement with prosthesis, 384

Hughes, F. A. (with Lowry, C. C., and Polk, J. W.) Thoracoplasty and resection for pulmonary tuberculosis, 454

Hughes, Julia (with Gobbel, Walter G., Jr., Reeve, Thomas S., and Stranahan, Allan) Maximum breathing capacity and saline infusion test, 498

Humphreys, G. H., II (with Totten, R. S., Stout, A. P., and Moore, R. L.) Benign tumors and cysts of esophagus, 606

I

Instrument for cardiac valvular commissurotomy, new (Larzelere and Bailey), 78

Intrabronchial instillation of silver-coated radioactive gold colloids in therapeutic quantities, lymphatic drainage following (Hahn and Carothers), 265

Intrapericardial dissection in left pneumonectomy for bronchiogenic carcinoma (Kirklin and Jampolis), 280

Intrapulmonic thymoma, primary subpleural (Crane and Carrigan), 600

Intrathoracic irradiation of hilum after resection for bronchial carcinoma (Schneidrzik), 327

neurofibromas of vagus nerve, neurofibromatosis with. Report of case associated with pectus excavatum (Gerbode and Marguiles), 429

surgery, respiratory acidosis during (Overholt) prone position (Etsten and Messer), 286

use of large bowel after subtotal esophagectomy for cancer (Lopes), 205

J

Jampolis, Robert W. (with Kirklin, John W.) Intrapericardial dissection in left pneumonectomy for bronchiogenic carcinoma, 280

Janes, Robert M. Contributions of surgery to knowledge of pulmonary disease. (Presidential address.), 545

Janton, O. Henry (with Glover, Robert P., O'Neill, Thomas J. E., and Harris, James S. C.) Indications for and results of commissurotomy for mitral stenosis, 55

Jensen, N. K. (with Stead, W. W., and Martin, F. E.) Physiologic studies following thoracic surgery. IV. Mechanism of development of acidosis during anesthesia, 435

K

Kay, Earl B. Inferior esophageal constrictor in relation to lower esophageal disease, 1

Keeley, John L. (with Gumbiner, Stanley H., Guzauskus, Anthony C., and Rooney, James A.) Mediastinal lipoma: successful removal of 1,700 gram mass, 316

Kenney, Leo J. Discussion of pulmonary valvulotomy, 185

Kergin, Frederick G. Discussion of experiences with operative management of delayed restoration of alimentary continuity in children originally treated by multiple stage procedure for correction of congenital tracheoesophageal defects, 24

Kirklin, John W. (with Jampolis, Robert W.) Intrapericardial dissection in left pneumonectomy for bronchiogenic carcinoma, 280

L

Lam, Conrad. Discussion of indications for and results of commissurotomy for mitral stenosis, 72

Lambert, Adrian VanSinderen. In memoriam, 543

Landis, Francis B. (with Weisel, Wilson) Endobronchial lesions in pulmonary blastomycosis, 570

Larzelere, H. B. (with Bailey, C. P.) New instrument for cardiac valvular commissurotomy, 78

Leven, N. Logan (with Varco, Richard L.) Experiences with operative management of delayed restoration of alimentary continuity in children originally treated by multiple stage procedure for correction of congenital tracheoesophageal defects, 16

Lewis, F. John (with Taufic, Mansur) Device for experimental creation of ventricular septal defects, 413

Likoff, William (with Bailey, Charles P., Truex, Raymond C., Angulo, Armand W., Geckeler, George D., Antonius, Nicholas, and Neptune, Wilford B.) Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation, 143

Lipiodol, reaction of pulmonary tissue to (Felton), 530

Lloyd, Milton Sills (with Barber, Hugh) Modified thoracotomy technique for prevention of postoperative pain and deformity, 300

Lobe in treatment of pulmonary tuberculosis, use of suture constriction of upper (Paulino procedure) (De Camp, Baffes, Overstreet, and Ochsner), 219

of lung as complication of diaphragmatic hernia, volvulus of (Ransdell and Ellison), 341

Lobectomy combined with five-rib thoracoplasty, immediate effects of upper. Physiologic studies following thoracic surgery. II. (Stead), 194

Lopes, L. H. Camara. Intrathoracic use of large bowel after subtotal esophagectomy for cancer, 205

Lowry, C. C. (with Hughes, F. A., and Polk, J. W.) Thoracoplasty and resection for pulmonary tuberculosis, 454

Lurie, Paul R. (With Shumacker, Harris B., Jr.) Pulmonary valvulotomy, description of new operative approach with comments about diagnostic characteristics of pulmonic valvular stenosis, 173

Lymphatic drainage following intrabronchial instillation of silver-coated radioactive gold colloids in therapeutic quantities (Hahn and Carothers), 265

M

MacCallum, James D. (with Chardack, William M.) Pancoast syndrome due to bronchiogenic carcinoma, successful surgical removal and postoperative irradiation, 402

McDonald, John R. (with Graham, George Grimsley, Clagett, O. Theron, and Schmidt, Herbert W.) Examination of pleural fluid for carcinoma cells, 369

MacKenzie, Donald A. (with Clagett, O. Theron) Unusual aneurysm of pulmonary artery. Report of case in which treatment was surgical, 524

Marder, Sumner (with Seaman, William B., and Wilson, Hugh M.) Pulmonary circulation in diagnosis of congenital heart disease, 305

Marguiles, Gerald S. (with Gerbode, Frank) Neurofibromatosis with intrathoracic neurofibromas of vagus nerve. Report of case associated with pectus excavatum, 429

Marsh, Kenneth. Double lumen catheter for bronchospirometry, 495

Martin, Frank E. (with Stead, William W.) Physiologic studies following thoracic surgery. III. Ventilatory studies in immediate postoperative period, 417

(with Stead, W. W., and Jensen, N. K.) Physiologic studies following thoracic surgery. IV. Mechanism of development of acidosis during anesthesia, 435

Maynard, Aubre DeL. (with Naclerio, Emil A., and Cordice, John W. V., Jr.) Personal experiences with ten consecutive cases of heart wound treated successfully by pericardiotomy and cardiorrhaphy, 448

Meade, Richard H. Discussion of patent ductus, 140

Mediastinal lipoma: successful removal of 1,700 gram mass (Keeley, Gumbiner, Guzauskus, and Rooney), 316

Mediastinum, cavernous hemangioma of posterior (Grimes, Raphael, and Stephens), 324

Mesotheliomas, solitary pleural (Benoit and Ackerman), 346

Messer, Anne C. (with Etsten, Benjamin E.) Respiratory acidosis during intrathoracic surgery: the (Overholt) prone position, 286

Michas, Pan A. (with Björk, Viking Olov, and Uggla, Lars G.) Arterial oxygen tension in rest and during effort as test of pulmonary function, 558

Miller, Joseph M. (with Ginsberg, Milton, and Scarborough, C. Parke) Successful construction of artificial antethoracic esophagus, 107

Mitral stenosis, indications for and results of commissurotomy (Glover, O'Neill, Harris, and Janton), 55

Moore, R. L. (with Totten, R. S., Stout, A. P., and Humphreys, G. H., II) Benign tumors and cysts of esophagus, 606

Muller, William H., Jr. (with Byron, Francis X., and Power, Harry W.) Delayed traumatic rupture of esophagus, 371

N

Naclerio, Emil A. (with Maynard, Aubre DeL., and Cordice, John W. V., Jr.) Personal experiences with ten consecutive cases of heart wound treated successfully by pericardiotomy and cardiorrhaphy, 448

Neerken, Adrian J. (with Peck, Mordant E., and Salzman, Emmanuel) Clinical experience with water-soluble bronchography compounds, 234

Neptune, Wilford B. (with Bailey, Charles P., and Goldberg, Harry) Surgical correction of atrial septal defects associated with transposition of pulmonary veins, 623

(with Bailey, Charles P., Truex, Raymond C., Angulo, Armand W., Geckeler, George D., Likoff, William, and Antonius, Nicholas) Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation, 143

Neurofibromatosis with intrathoracic neurofibromas of vagus nerve. Report of case associated with pectus excavatum (Gerbode and Marguiles), 429

O

Obituary, Adrian VanSinderen Lambert, 543
O'Brien, C. E. Discussion of pulmonary function after multiple segmental resection for bronchiectasis, 51
Ochsner, Alton (with DeCamp, Paul T., Baffes, Thomas G., and Overstreet, John W.) Use of suture constriction of upper lobe in treatment of pulmonary tuberculosis (Paulino procedure), 219
O'Neill, Thomas J. E. (with Glover, Robert P., Harris, James S. C., and Janton, O. Henry) Indications for and results of commissurotomy for mitral stenosis, 55
Overholt, Richard H. (with Walker, James H., and Etsten, Benjamin) Pulmonary function after multiple segmental resection for bronchiectasis, 40, 53
Overstreet, John W. (with DeCamp, Paul T., Baffes, Thomas G., and Ochsner, Alton) Use of suture constriction of upper lobe in treatment of pulmonary tuberculosis (Paulino procedure), 219
Oximeter, simple test of pulmonary function employing the (Alexander and Reydman), 95
Oxygen tension in rest and during effort as test of pulmonary function, arterial (Björk, Michas, and Uggla), 558

P

Pancoast syndrome due to bronchiogenic carcinoma, successful surgical removal and postoperative irradiation (Chardack and MacCallum), 402
Patent ductus, review of seventy-five cases with surgical treatment including an aneurysm of ductus and one of pulmonary artery (Holman, Gerbode, and Purdy), 111
Peabody, J. Winthrop, Jr. (with Buechner, Howard A., Anderson, Augustus E., Strug, Lawrence H., and the Seabury, John H.) Pulmonary resection in treatment of blastomycosis, 468
Peck, Mordant E. (with Neerken, Adrian J., and Salzman, Emmanuel) Clinical experience with water-soluble bronchography compounds, 234
Pectus excavatum, report of case associated with. Neurofibromatosis with intrathoracic neurofibromas of vagus nerve (Gerbode and Marguiles), 429
Pericardiotomy and cardiorrhaphy, personal experiences with ten consecutive cases of heart wound treated successfully by (Naclerio, Maynard, and Cordice), 448
Physiologic studies following thoracic surgery. II. Immediate effects of upper lobectomy combined with five-rib thoracoplasty (Stead), 194
III. Ventilatory studies in immediate postoperative period (Martin and Stead), 417
IV. Mechanism of development of acidosis during anesthesia (Stead, Martin, and Jensen), 435
Pleural fluid for carcinoma cells, examination of (Graham, McDonald, Clagett, and Schmidt), 366
Plombage, thoracoplasty with temporary extraperiosteal Lucite ball (Povah), 516
Pneumonectomy for bronchiogenic carcinoma, intrapericardial dissection in left (Kirklin and Jampolis), 280
carcinoma, block dissection in (Higginson), 582
Polk, J. W. (with Hughes, F. A., and Lowry, C. C.) Thoracoplasty and resection for pulmonary tuberculosis, 454
Poppe, J. Karl. Discussion of inferior esophageal constrictor in relation to lower esophageal disease, 15
Postoperative pain and deformity, modified thoracotomy technique for prevention of (Lloyd and Barber), 300
Povah, A. H. Thoracoplasty with temporary extraperiosteal Lucite ball plombage, 516
Power, Harry W. (with Muller, William H., Jr., and Byron, Francis X.) Delayed traumatic rupture of esophagus, 371
Prosthesis, tracheal resection and replacement with (Craig, Holmes, and Shabart), 384
Pulmonary artery, review of seventy-five cases with surgical treatment including an aneurysm of ductus and one of the. The patent ductus (Holman, Gerbode, and Purdy), 111.
unusual aneurysm of (MacKenzie and Clagett), 524
blastomycosis, endobronchial lesions in (Weisel and Landis), 570
circulation in diagnosis of congenital heart disease (Marder, Seaman, and Wilson), 305
disease, contributions of surgery to knowledge of (Janes), 545
function after multiple segmental resection for bronchiectasis (Overholt, Walker, and Etsten), 40
arterial oxygen tension in rest and during effort as test of (Björk, Michas, and Uggla), 558
employing oximeter, simple test of (Alexander and Reydman), 95
Hematoma (Salyer, Blake, and Forsee), 336
Resection in treatment of blastomycosis (Buechner, Anderson, Strug, Seabury, and Peabody), 468

Pulmonary—Cont'd
lung tuberculosis (Zerbini), 82
supine position, indications for thoracoplasty (Sanger), 256
tissue to Lipiodol, reaction of (Felton), 530
tuberculosis eleven to sixteen years after operation, thoracoplasty for (Aufses and Harte), 329
thoracoplasty and resection for (Hughes, Lowry, and Polk), 454
valvulotomy. Description of new operative approach with comments about diagnostic characteristics of pulmonic valvular stenosis (Shumacker and Lurie), 173
veins, surgical correction of atrial septal defects associated with transposition of (Neptune, Bailey, and Goldberg), 623
Puppel, I. Darin. Discussion of inferior esophageal constrictor in relation to lower esophageal disease, 13
Purdy, Ann. (with Holman, Emile, and Gerbode, Frank) The patent ductus, Review of seventy-five cases with surgical treatment including an aneurysm of ductus and one of pulmonary artery, 111

R

Radioactive gold colloids in therapeutic quantities, lymphatic drainage following intrabronchial instillation of silver-coated (Hahn and Carothers), 265
Ransdell, Herbert T., Jr. (with Ellison, Robert G.) Volvulus of lobe of lung as complication of diaphragmatic hernia, 341

Scott, H. William, Jr. Discussion of pulmonary valvulotomy, 185
(with Sabiston, David C., Jr.) Surgical treatment for congenital aorticopulmonary fistula, 26, 39
Seabury, John H. (with Buechner, Howard A., Anderson, Augustus E., Strug, Lawrence H., and Peabody, J. Winthrop, Jr.) Pulmonary resection in treatment of blastomycosis, 468
Seaman, William B. (with Marder, Sumner N., and Wilson, Hugh M.) Pulmonary circulation in diagnosis of congenital heart disease, 305
Septal defects associated with transposition of pulmonary veins, surgical correction of atrial (Neptune, Bailey, and Goldberg), 623
device for experimental creation of ventricular (Taufic and Lewis), 413
modified button technique for closure of experimental interauricular (Swan and Stewart), 397

Shabart, Elmer J. (with Craig, Robert L., and Holmes, George W.) Tracheal resection and replacement with prosthesis, 384

Shaw, Robert. Discussion of surgical treatment for congenital aorticopulmonary fistula, 38

Shumacker, Harris B., Jr. Discussion of patent ductus, 140

(with Lurie, Paul R.) Pulmonary valvulotomy. Description of new operative approach with comments about diagnostic characteristics of pulmonic valvular stenosis, 173, 186

Skin graft of penetrating wounds of intrathoracic trachea, repair by full thickness (Hanner and Cohen), 380

Solitary pleural mesotheliomas (Benoit and Ackerman), 346

Stead, William W. Physiologic studies following thoracic surgery. II. Immediate effects of upper lobectomy combined with five-rib thoracoplasty, 194

(with Martin, F. E., and Jensen, N. K.) Physiologic studies following thoracic surgery. IV. Mechanism of development of acidosis during anesthesia, 435

(with Martin, Frank E.) Physiologic studies following thoracic surgery. III. Ventilatory studies in immediate postoperative period, 417

Stephens, H. Brodie (with Grimes, Orville F., and Raphael, Robert L.) Cavernous hemangioma of posterior mediastinum, 324

Stewart, B. D. (with Swan, Henry) Modified button technique for closure of experimental interauricular septal defects, 397

Stout, A. P. (with Totten, R. S., Humphreys, G. H., II, and Moore, R. L.) Benign tumors and cysts of esophagus, 606

Stranahan, Allan (with Gobbel, Walter G., Jr., Reeve, Thomas S., and Hughes, Julia) Maximum breathing capacity and saline infusion test, 498

Strug, Lawrence H. (with Buechner, Howard A., Anderson, Augustus E., Seabury, John H., and Peabody, J. Winthrop, Jr. Pulmonary resection in treatment of blastomycosis, 468

Surgical technique for restoration of coronary circulation, anatomic (histologic) basis and efficient clinical (Bailey, Truex, Angulo, Geckeler, Likoff, Antonius, and Neptune), 143

Suture constriction of upper lobe in treatment of pulmonary tuberculosis (Paulino procedure) (DeCamp, Baffes, Overstreet, and Ochsner), 219

Swan, Henry. Discussion of indications for and results of commissurotomy for mitral stenosis, 73

discussion of pulmonary valvulotomy, 185

(with Stewart, B. D.) Modified button technique for closure of experimental interauricular septal defects, 397

T

Tantalum mesh, eventration of diaphragm repaired utilizing (Sanford), 422

Taufic, Mansur (with Lewis, F. John) Device for experimental creation of ventricular septal defects, 413

Thompson, J. Robert. Carcinosarcoma of esophagus. Report of case with autopsy findings, 261

Thoracic stomach, malignant disease in association with hiatus hernia (Robb), 493

surgery, physiologic studies following II. Immediate effects of upper lobectomy combined with a five-rib thoracoplasty (Stead), 194

III. Ventilatory studies in immediate postoperative period (Martin and Stead), 417

IV. Mechanism of development of acidosis during anesthesia (Stead, Martin, and Jensen), 435

Thoracoplasty, immediate effects of upper lobectomy combined with five-rib. Physiologic studies following thoracic surgery. II. (Stead), 194

and pulmonary resection in supine position, indications for (Sanger), 256

resection for pulmonary tuberculosis (Hughes, Lowry, and Polk), 454

for pulmonary tuberculosis eleven to sixteen years after operation (Aufses and Harte), 329

with temporary extraperiosteal Lucite ball plombage (Povah), 516

Thoracotomy technique for prevention of postoperative pain and deformity (Lloyd and Barber), 300

Thymoma, primary subpleural intrapulmonic (Crane and Carrigan), 600

Totten, R. S. (with Stout, A. P., and Humphreys, G. H., II, and Moore, R. L.) Benign tumors and cysts of esophagus, 606

Trachea, repair by full thickness skin graft of penetrating wounds of intrathoracic (Hanner and Cohen), 380

Tracheal resection and replacement with prosthesis (Craig, Holmes, and Shabart), 384

Tracheoesophageal defects, experiences with operative management of delayed restoration of alimentary continuity in children originally treated by multiple stage procedure for correction of congenital (Leven and Varco), 16

Traumatic cardiac septal defect. Report of case in which diagnosis is established by cardiac catheterization (Guilfoil and Doyle), 510

rupture of esophagus, delayed (Muller, Byron, and Power), 371

Tricerri, F. E. Discussion of indications for and results of commissurotomy for mitral stenosis, 76

Truex, Raymond C. (with Bailey, Charles P., Angulo, Armand W., Geckeler, George D., Likoff, William, Antonius, Nicholas, Neptune, Wilford B.) Anatomic (histologic) basis and efficient clinical surgical technique for restoration of coronary circulation, 143

Tuberculosis, pulmonary resection in treatment of lung (Zerbini), 82

use of suture constriction of upper lobe in treatment of pulmonary (Paulino procedure) (DeCamp, Baffes, Overstreet, and Ochsner), 219

Tumors and cysts of esophagus, benign (Totten, R. S., Stout, A. P., Humphreys, G. H., II, and Moore, R. L.), 606
